Professional Summary

UX/UI and Product Designer with two years of hands-on experience designing user-centred, research-driven interfaces for web, SaaS, and mobile products. Currently completing a specialised Digital Design programme at the Cité des Métiers et des Compétences (CMC) Tanger-Tétouan-AI Hoceïma (2024–2026). Builds end-to-end design systems grounded in atomic and component-based principles, with hands-on practice across information architecture, interaction design, wireframing, and high-fidelity prototyping. Has shipped multi-role SaaS dashboards and redesigned client websites from discovery research through to production-ready interfaces. Works in close cross-functional collaboration with frontend, backend, and AI/Python engineers, and grows a UX/UI-focused content brand on Instagram alongside client work. Now seeking a full-time role to apply this experience within a structured product design team.

Work Experience

Freelance UX Research & UI Designer

Independent, Various Clients (2025 – Present)

- Partner with clients project-by-project, applying user-centred design and information architecture principles to turn outdated websites into clean, research-backed interfaces and reusable design systems.
- Lead UX/UI redesign projects such as Aero Staff Campus, an airport-registration platform for a French client, working alongside a development team to define user personas and user flows, and resolve usability issues ahead of deployment.
- Design fully responsive, multi-device websites such as a seven-screen appointment-booking platform for an ENT specialist clinic, built on a custom design system using an atomic design approach.

Content Creator & Social Media Manager

Instagram (@icon_ui.ux) (2025 – Present)

- Design and publish UX/UI-focused social media content, managing content strategy, posting cadence, and audience growth for a design-education account.
- Develop original concept websites and product design explorations rooted in narrative-driven visual storytelling and observational design research, shared publicly to demonstrate design thinking in practice.

UX/UI Design Intern

Mediassive, Tangier (March 2026 · 1 month)

- Created the FinderrLink brand identity and visual design language, including the logo, its presentation, and the narrative behind its concept.
- Designed the complete FinderrLink platform across three user roles (freelancer, enterprise, agency), including dashboards, hiring and company cards, KPI widgets, profile pages, messaging, and a floating AI assistant.
- Adapted the full interface for mobile, maintaining visual and functional consistency across devices.
- Shipped production-ready screens for a live SaaS product within a focused one-month sprint.

Education

Technicien Spécialisé, Digital Design

Cité des Métiers et des Compétences (CMC) Tanger-Tétouan-AI Hoceïma (2024 – 2026)

Specialised training in user research, information architecture, web fundamentals, and UI principles (Year 1), followed by advanced UX/UI design, real-world product problem-solving, and end-to-end interface design (Year 2). Class projects include a full redesign of the ANAPEC platform around two core user roles, freelancers and hiring employers, featuring a feature-presentation landing page and a custom design system built from scratch using an atomic design approach; and a training-resource platform connecting trainees and trainers, where trainees engage with shared learning resources while administrators manage timetables and the full enrolment lifecycle.

Baccalauréat Professionnel, Génie Électrique (Electrical Engineering)

Lycée Al Khawarizmi, Tangier (2022)

Certifications

Agile Project Management (HP LIFE, HP Foundation – January 2026)
