Professional Summary

UX/UI Designer focused on user-centered, research-driven interfaces for web, SaaS, and mobile products, currently owning UX, interaction design, and design systems end to end as the sole in-house designer at a digital agency. Graduating in 2026 in Digital Design (UI Option).

Work History

Product Designer (UX/UI, Brand & Interaction Design)
Mediassive (Tangier, Morocco) | August 2026 – Present

- Owned UX/UI design end to end as the sole in-house designer, resolving usability issues, leading iterative design, and crafting interactions and micro-interactions across web and native mobile for a multi-role SaaS platform
- Placed users at the center of the process as active participants, creating questionnaires and analyzing responses to group user needs and ground design decisions in real input
- Mind-mapped ideas, then turned research into user flows, wireframes, and prototypes
- Built brand identities from scratch, defining core values and designing logos and guidelines, then extending them across native mobile screens and social content
- Collaborated with software engineers from ideation through production, shaping technical feasibility early and reviewing built screens against UX intent

Freelance UX/UI Designer
Independent, various clients (Tangier, Morocco) | 2025 – Present

- Designed Centre ORL Tanger, a 7-screen responsive booking platform for a healthcare clinic, built on a custom atomic design system for scalable reuse

UX/UI Design Intern
Mediassive (Tangier, Morocco) | March 2026 (1 month)

- Designed a complete multi-role SaaS platform across 3 user roles (freelancer, enterprise, agency) in a 1-month internship that converted directly into a full-time offer

Design Content Creator
Instagram, @icon_ui.ux | 2025 – Present

- Published original UX/UI concept explorations, including ROUX, a self-directed brand identity and website concept, to a growing design-education audience
- Shared early-stage, unpolished work publicly to gather feedback and sharpen craft

Skills

- User research and journey mapping
- Interaction and micro-interactions
- Wireframing and prototyping
- Usability testing
- Information architecture
- Responsive design
- Atomic design and design systems
- Figma, FigJam, Framer, Webflow
- Adobe Photoshop, Adobe XD, Notion
- Visual identity and brand guidelines
